GENERAL NOTES

H28	Option 551834 (roller blinds on rear wing doors) not included with 630 MEG OUTLAW	H712D	Fresh water tank capacity is 102 ltr. with the overflow valve closed
H140	Mass in running order based on the homologated basic model	H712A	Fresh water tank capacity is 80 ltr. with the overflow valve closed
H141	Please note that the number of beds indicated may include beds for both adults and children. The beds do not have the same dimensions. We therefore recommend that you consult your WEINSBERG dealer about the dimensions of the beds provided in the vehicle so that you can decide whether they are suitable for the occupancy (adults/children) you intend to have.	H145	If this option is selected, the vehicle height increases by approx. 11 cm
H142	For some models, additional equipment must be selected in order to achieve the maximum possible beds. Your WEINSBERG dealer will be happy to advise you.	H146	In addition, the hardware is prepared to be expanded via optional sensors (e.g. door/window contact). For more information, please visit www.velocate.com
H711A	The fresh water tank capacity referred to attachment V, part A, ciff. 2.6. Fn. VO (EU) 1230/2012 depending on vehicle type is limited by a circulation valve to 20 ltr. (suggested filling for running order)	H135	Awning size differs when choosing the installation roof for technical reasons
		H137	A voucher to redeem the medicine set is enclosed with the vehicle. The medicine set contains medicines that must be purchased from a pharmacy. The voucher can therefore only be redeemed at the responsible MediKit mail-order pharmacy at www.medikit.shop You can also obtain further information about your MediKit at www.medikit.shop .

For leisure vehicles made by WEINSBERG, we grant you a 10-year leak-proofness guarantee on the body manufactured by us in addition to your compulsory guarantee within the framework of our guarantee conditions.

Please note the following important information FOR ALL LEISURE VEHICLES MADE BY WEINSBERG:

ABOUT THIS PRICE LIST:

The content corresponds to the state of printing in 08/2020.

The price list is valid as from 09/2020 for the 2021 model year. Previous price lists, brochure information and technical data are no longer valid in relation to the vehicles offered. Errors and misprints are reserved.

ABOUT TECHNICAL SPECIFICATIONS AND ILLUSTRATIONS:

All dimensions and weights are within possible tolerances of $\pm 5\%$ due to the use of natural raw materials.

Installations, modifications or extensions in unauthorised workshops not only endanger your safety. You also risk losing your general operating permit and the statutory warranty claims. Therefore, have repairs or retrofitting carried out only by an authorised WEINSBERG specialist dealer and insist on WEINSBERG original extras.

Any subsequent modifications and extensions, insofar as these are technically possible, require additional assembly and material costs. In individual cases, special request combinations may be mutually excluded.

The information on the delivery contents, measurements and weights as well as the appearance correspond to the knowledge at the time of printing 08/2020. We reserve the right to make changes on equipment, technical data, serial equipment and prices.

After a contract has been concluded, we reserve the right to make technical changes within the framework of the construction insofar as they serve technical progress and are acceptable for the customer. Minor colour and texture deviations are also reserved - even after conclusion of the contract - insofar as these cannot be avoided due to the material (e.g. colour deviations of up to approx. 2.0 dE between paint on sheet metal and paint on GRP/plastic) and are reasonable for the customer.

Some illustrations show equipment features which are not included in the serial equipment and/or which can be ordered at extra cost (optional extras), and in some cases also equipment features of prototypes/studies/country variants which do not correspond to the serial status and which cannot be ordered as optional extras. Minor colour deviations between the illustrations in the brochure and the actual vehicle cannot be completely excluded due to printing processes.

Therefore, before purchasing a vehicle, please seek comprehensive advice on the current status of the series from an authorised WEINSBERG dealer. The decoration shown in the catalogue is not part of the equipment supplied.

ABOUT WEIGHTS, CALCULATION EXAMPLES AND NORMS

The water supply system corresponds at least to the state of the art 03/2009 (Directive 2002/72/EC)

The fresh water tank capacity referred to attachment V, part A, ciff. 2.6. Fn. VO (EU) 1230/2012 depending on vehicle type is limited by a circulation valve to 10, 20 or 40 ltr. (suggested filling for running order)

WEINSBERG leisure vehicles are characterised by their technical progress. Through innovative solutions such as the use of high-strength steels for the chassis or intelligent honeycomb technology in furniture construction, low tare weights of the WEINSBERG leisure vehicles are created.

The mass of the empty vehicle as referred to in the price list is the mass of the vehicle with standard equipment and without basic equipment, i.e. without the driver's weight, „liquids“ and optional fittings as referred to in art. 2, ciff. 3 VO (EU) 1230/2012.

The mass in running order, see Article 2, ciff. 4 a) VO (EU) 1230/2012, unless not regulated otherwise, is defined as follows:

Mass of the vehicle with standard equipment as referred to in manufacturer specifications (incl. tool kit):

- + Fuel tank (filled to 90%)
- + 75 kg (mass of the driver)
- + Liquid gas bottles (5 /11 kg) filled to 100% (i. e. 10 /23 kg total mass)
- + Fresh water tank (filled to 100%) (Capacity fo the Fresh water tank depending on vehicle type is limited to 10 ltr./20 ltr./40 ltr. fresh water in running order, if not tecnically regulated)
- + Toilet flush tank (filled to 100%)
- + Fresh water boiler (filled to 100%)
- = Mass in running order

The „technically permissible total mass“ see Article 2, ciff. 7 VO (EU) 1230/2012 is defined as follows:

The mentioned vehicle's maximum mass from the manufacturer in loaded state, i. e. the maximum permissible total mass of the vehicle in running order with special equipment and payload (passengers, luggage, etc.)

The maximum permissible payload as referred to in the WEINSBERG catalogue is defined as:

Technically permissible total mass

- Mass in running order

= Maximum permissible payload

Example:

(Technically permissible total mass) 3.500 kg

- (Mass in running order) 2.850 kg

= (Maximum permissible payload) 650 kg

LEGALLY REQUIRED INFORMATION

The information provided for a vehicle under the heading "Technical data / equipment details" initially refers to the basic type of model approved under the EC type-approval procedure. Within the scope of country variants and special models, these values may differ if necessary. Please inform yourself about such deviations personally at your (BRAND) specialist dealer.

Pay particular attention to the following:

The maximum load capacity as defined in the catalogue specifications is reduced, for example, by the mass of the passengers and also by the mass of any additional equipment ordered

When selecting additional equipment, you are responsible for ensuring that your WEINSBERG leisure vehicle, after deducting the mass of passengers (estimated at 75 kg per passenger) and the mass of additional equipment from the maximum load capacity, the vehicle must still have a minimum load capacity (= minimum payload) which must not be undercut under any circumstances (see Annex I, Part A, ciff. 2.6.4.1.2 of Regulation (EU) 1230/2012):

Example - calculation of the minimum payload:

(Maximum number of authorised passengers plus driver

+ total length of the vehicle in metres)

x 10

= Minimum loading capacity in kg.

[(Maximum number of authorised passengers plus driver) 4

+ (Total length of vehicle in metres) 6]

x 10 =

100 kg.

As the buyer of a WEINSBERG leisure vehicle, you are obliged to comply with the minimum payload. If the vehicle you wish to order does not have the required payload capacity and minimum payload due to the optional equipment selected, you have two options to choose from for your order:

- Increasing the load of the vehicle

- De-selecting optional equipment

For certain motorhome / CUV models made by WEINSBERG, you have the option of reducing the number of permitted seats in the vehicle when ordering (depending on the model and only on demand). Reducing the number of permitted seats in operation by one seat increases the load capacity or the possibility of ordering additional equipment for your leisure vehicle by a maximum of 85 kg.

Your WEINSBERG dealer will provide you with information on the remaining minimum payload of your vehicle at any time upon request.

The mass of the vehicle with standard equipment according to manufacturer specifications is determined through weighing of the vehicle with standard serial equipment.

As a user of a motorhome/CUV, you are obliged to comply with the "technically permissible total mass" and the respective maximum axle loads when driving and to ensure that the load distribution is appropriate and dependent on the axle load. You are also obliged to comply with all other regulations necessary for the safe operation of your vehicle.

SPECIFICATIONS AND INFORMATION ABOUT PRICES

Ordering optional equipment which substitutes specific package options will not be delivered additionally.

The prices indicated are recommended retail prices of the manufacturer. The prices quoted include the statutory value added tax applicable at the time and, if applicable, other legally prescribed calculation factors or taxes which may also be shown separately. The prices are (depending on the country) exclusive of the costs for registration papers, delivery and transport, unless expressly stated otherwise.

The recommended retail prices for optional equipment are only valid for factory installation in new vehicles in current production. In addition, subsequent installation is not possible for all optional equipment offered. The prices of the individual packages are fixed prices and cannot be changed by additional options.
